**Yes, we repeat!**

**The Laziest Weight Loss Aid EVER!**

**NO Fancy Diets!**

**NO Eating plans!**

**NO denying yourself anything!**

**Burn Fat while you sleep!**

Certified as Non-Toxic by the United States  
Department of Agriculture (USDA).

**The Seed.  
You Snooze - You Lose.**

What your weight loss secret looks like.

**What The Seed Does:**

- Breaks down and burns fat.
- Helps maintain lean muscle mass.
- Reduces the appearance of cellulite.
- Helps rid your body of toxins and cleans out your digestive tract.
- Supports a healthy metabolism.
- Reduces appetite & cravings.
- Lowers Cholesterol.
- Helps clear acne prone skin.
- Enhances the appearance of your skin.
- Helps with the inflammation caused by hemorrhoids.
- Increased bowel movement due to its 100% natural mild laxative effect.
- Eases constipation.
- Appetite and cravings become drastically reduced.
- Strengthens, shines and promotes hair growth.
- Reduces craving for cigarettes.
- Detoxifies the body.
- Weight and centimeter loss with minimum effort.

**What You Need To Do:**

- Take The Seed just before you go to bed.
- Activate it in the morning with a glass of warm water.
- Drink at least 2 litres of water a day.
- Eat a banana and an orange at least 2-3 times a week.
- Sleep supports weight loss. You Snooze -You Lose.
- The more water you drink, the faster your weight loss will be.
- If bowel movement increases too much. Go back to 1/8<sup>th</sup> or take every second day.
- Your body may resist (feel like nothing is happening.) Do not stop taking, the barrier will be broken.

**Easy or what?**

The Seed, water, a banana and an orange. That is it.  
Sit back, relax and watch the weight  
and centimeters fade away.  
P.S. Vitamin C aids in weight loss.

---

**I lost 16 kilo's and I didn't change my diet at all.  
I still eat and drink exactly what I want to  
and keep the weight off. - CLY**

---

**What You Cannot Do:**

- Do not microwave!
- Do not take laxatives!
- Do not use with any other diet product!
- Do not take more than a quarter ¼ of The Seed daily.
- Chocolate neutralizes the effect of The Seed.
- Do not drink alcohol and The Seed at the same time - Rather skip a day and resume taking The Seed the next day.

## What Does It Cost?

### R450-00 for a 52-Day - 48-Day Supply.

It costs less than a can of coke a day.

### R300-00 for a 28-Day - 24-Day Supply.

## How Do You Know It Is Working?

Remember that your body is detoxing. It needs to flush the toxins and broken down fat. Drink at least 2-3 litres of water a day.

Your skin may become sensitive to touch.  
**(The fat break down has kicked in.)**

You may feel tired or have a slight loss of energy.  
**(Eat your banana and orange.)**

Muscle Pain.  
**(Toxins leaving your body.)**

Nausea, headaches and slight breakout on the skin. **(Toxins leaving your body.)**

Back or kidney pain.  
**(Drink more water)**

If you experience any discomfort, pains, headaches, bloatedness and flatulence etc.  
**(You have NOT had enough water. Drink more water, symptoms disappear almost immediately.)**

All symptoms and discomfort are resolved by drinking water and eating a banana and an orange.

## How To Take The Seed:

### FIRST 8 DAYS - (For first time users only) to help your body adapt.

Cut one seed into one-eighth (1/8<sup>th</sup>). Drink your eighth (1/8<sup>th</sup>) of The Seed before you go to bed and activate it in the morning with a glass of warm water, or take it in the morning and activate immediately.

### Day 9 Onwards.

Cut one seed into quarters (1/4). Drink a quarter (1/4) of The Seed before you go to bed and activate it in the morning with a glass of warm water, or take it in the morning and activate immediately.

Once you have achieved your goal weight, we suggest you continue to drink 1/8<sup>th</sup> of The Seed 3-5 times a week, to maintain your ideal weight. Especially if you have not changed your eating habits.

## Do Not Take If:

- **You are allergic to nuts.**
- You are older than 60 and younger than 16.
- **KEEP OUT OF REACH OF CHILDREN.**
- You are pregnant, and or are breastfeeding.
- You have a medical condition (heart, kidney or liver disease)
- You suffer from gastritis.
- You suffer from blood pressure or hypertension.
- You have renal dysfunction or renal artery disease.
- You are recovering from an illness or medical treatment. Are on prescription medication.
